WRANGELL'S YOUTH

The future we're building for

- Our 8th graders asked the real questions
- They are already thinking like planners and policymakers.
- Most students said they want to grow up, gain skills, and come back to Wrangell
- Our community has an industrious, hands-on culture
- Today's infrastructure decisions shape their career options tomorrow.
- Career-level jobs, year-round industry stability, and economic resilience.
- Growth isn't just about population
- They are not just observers of this process

WHY ECONOMIC ACTIVITY MATTERS IN DISASTER RECOVERY

- Jobs restore stability.
- Local businesses are the backbone of resilience.
- Tax base = recovery capacity.
- Diversified industry reduces risk.
- Private investment signals confidence.
- Recovery is not just rebuilding

OVERVIEW OF WRANGELL ECONOMICS

- History
- Current conditions
- Recent economic initiatives
- Disaster impacts
- Job profile and salary
- Preliminary project impacts
