

# WRANGELL INSTITUTE MASTER PLAN

## Town Meetings

**Monday June 13th AND Wednesday, June 15th**

**6:30 PM to 8:30 PM**

**Nolan Center**

### **Presentation of Institute Property Master Plans.**

### **Help us refine and provide input for your community.**

Special presentation from ANSEP (Alaska Native Science and Engineering Program).

**Monday, June 13:** Come see how your seven original Institute Master Plans were narrowed down to three. Provide feedback as we further narrow down and revise to meet the needs and desires of your community. ANSEP will provide a special presentation on their program and get community feedback about developing a school campus at the Institute Property. (The meeting may run until 9 PM on Monday).

**Wednesday, June 15:** We will continue to revise and will present our updated work to you on Wednesday. Your input will help us as we narrow to one preferred Wrangell Institute Property Master Plan.

**Open Door Workshop (Tuesday and Wednesday):** The planning team will develop your master plan while in the community. Stop by the small conference room in the Nolan Center to provide input and see the master plan being developed.
