Determining Benefit to Low and Moderate Income Persons

Who must submit this appendix with their application?

Every applicant for CDBG funds, regardless of project or category.

What is the purpose of this appendix?

The national objective of the CDBG program is to benefit Low to Moderate Income (LMI) persons. Every applicant for CDBG funds <u>must</u> submit this appendix in order to verify that they meet this national objective.

On the following pages is a checklist which addresses each way in which a project can meet this national objective. You must work through the checklist until one of the starred notations indicates you need go no further.

Note: If the project will not serve the entire community or if the data in Part 1 of Appendix B3 does not reflect that at least 51% of the community residents are LMI, you will need to conduct a survey of the area to be served by the project **prior** to submission of an application. **Contact CDBG Program staff for the survey methodology that must be utilized**. Survey results will be considered valid until the next application cycle or the next census data is published.

Note: If a project that meets the job creation benefit is located in a primarily residential area, you must also show that you meet the area-wide benefit.

Note: Planning applications must demonstrate that at least 51% of the persons who would benefit from implementation of the plan, or a project which results from the plan, are LMI.

Section 1: LMI Area-Wide Benefit

Complete Section 1 if you think your project meets the definition of an **Area-Wide Benefit** as defined on Pages 19 - 20 of the CDBG Handbook.

Job Creation/Retention Forms

Who must submit this appendix with their application?

Any applicant for CDBG funds who is meeting the LMI Benefit in Appendix B1 through Job Creation/Retention activities. You may not use Job Creation and Retention for meeting the LMI Objective for a Planning Application.

All projects meeting the LMI benefit through Job Creation/Retention activities must document and report the Ethnic/Racial characteristics of the persons who fill the job positions.

What is the purpose of this appendix?

An applicant proposing to meet the LMI benefit through job creation/retention is committing to tracking the required job data. The first page of this Appendix is to be filled out (indicate the number of jobs involved) and submitted with your application. The second and third pages are for your information, and need not be submitted at this time; these will be required reports during the life of your grant, if funded.

Job Creation/Retention Certification

The Applicant, by signature and submittal of this application, acknowledges the requirement that, if awarded, this Community Development Block Grant Project will, during the life of the project or within two years of the start date of the project, whichever is less, result in either the creation of _____ (number) permanent, full-time equivalent jobs, 51% of which must be filled with persons of LMI households, or the retention of _____ (number) permanent, full-time equivalent jobs held by LMI persons. Job titles and descriptions for those jobs expected to be created or retained are attached.

A full-time equivalent job is defined as one in which the incumbent works at least forty (40) hours per week on a year-round basis. Low to moderate household income is defined as 80% of the median household income for the employee's family size for the area in which the project is located. Median household income information for the area in which this project is located is identified on the Income Limits Table, which is a part of Appendix B. Updates to this income data will be provided by the Department to the applicant as made available through HUD.

The applicant acknowledges that in order to justify expenditure of CDBG funds as outlined in this application and any subsequent grant agreement, the applicant will be required to maintain and submit information to the Department **monthly** which documents Job Creation activities and progress in meeting placement goals for LMI persons. This documentation will include the following information, which will be collected through use of the attached **Employee/Job Applicant Certification Form**:

- 1. Name, address, and social security number of each applicant for all jobs created by this project;
- 2. Household size for each job applicant;
- 3. Household income for each job applicant;
- 4. Racial/Ethnic characteristics.

Copies of each Employee/Applicant Certification Form will be submitted to the Department monthly by the Grantee.

Additionally, the Applicant/Grantee will be required to submit a **Job Creation Monthly Report**, copy attached, which summarizes the specific jobs created during the monthly reporting period, as well as the name, household income, family size, and date of hire for new hires during the month being reported. Racial/Ethnic characteristics will also be included.

The Applicant/Grantee further understands that failure to meet the job creation projections outlined in this certification and any subsequent grant agreement will result in withholding payment or a request for repayment of all or part of the grant funds.

Definitions: Income: Income includes all money or its equivalent received by members of a household in exchange for labor or services, from the sale of goods or property, public assistance payments, or as profit from financial investments. For clarification of special circumstances, contact your Grant Administrator.

Full-time equivalent: A position in which the employee works at least 40 hours per week (2,080 hours per year) on a year-round basis. A full-time equivalent position can result, for example, from two part-time permanent employees working 20 hours per week each. For clarification of special circumstances, contact your Grant Administrator.

Household/Family: A household consists of all members of a family, both adults and children, regularly sharing a single dwelling.

Employee Job Applicant Certification

The City/Borough to which you are now applying is the recipient of financial assistance through the State of Alaska's Small Cities Community Development Block Grant (CDBG) Program. As part of the program requirements, the City/Borough must report the number of jobs created for persons from low to moderate income households. This information is not part of the selection process and will not be used in determining which persons will be hired. This information is being requested to assist the City/Borough in satisfying the U.S. Department of Housing & Urban Development's requirements for documentation of the beneficiaries of CDBG assistance.

 - a. CDBG funds are used to pay the proportion of such fee or assessment that relates to the capital costs of such public improvements that are financed from revenue sources other than under this subpart; or

Appendix D

Environmental Review Information

Who must submit this appendix with their application?

Appendix D is provided for your information only and should not be submitted with your application.

What is the purpose of this appendix?

Every applicant for CDBG funds must obtain appropriate environmental clearances for their proposed activity, as required by the federal regulations which accompany expenditure of any federal funds. DCCED will make a determination regarding the environmental requirements of each project. *The applicant may not make this determination.* Successful applicants will receive information about appropriate procedures for Environmental Review after notification of award.

Note: All project activity must **stop at the time of submitting the application** and until the Environmental Review Requirements are met, including project activities funded with non-CDBG matching funds.

Environmental Review

Each CDBG activity must obtain appropriate environmental clearances as required by 24 CFR Part 58 of NEPA and all related laws and authorities. DCCED will make a determination regarding the environmental requirements of each project and notify each grantee about appropriate procedures **after notification of award**. Projects will be determined by the Department to be either:

- 1. **EXEMPT** from further environmental review; *OR*
- 2. **CATEGORICALLY EXCLUDED** from further environmental review; *OR*
- 3. Requiring completion and submission of an ENVIRONMENTAL STATUTORY CHECKLIST and the ENVIRONMENTAL ASSESSMENT CHECKLIST to determine whether the project will or will not have a significant impact on the human environment. Based upon these checklists, if it is determined that the project will have a potentially significant impact on the human environment, the grant recipient will be required to do an ENVIRONMENTAL IMPACT STATEMENT (EIS). The procedure for completion of an EIS is spelled out in 24 CFR Part 58 Subparts H and I.

The following activities, subject to HUD regulations, have been designated **EXEMPT**:

- ✓ Environmental studies or assessments;
- ✓ Planning activities;
- ✓ Reasonable engineering and design costs associated with an eligible activity;
- ✓ Interim assistance under provisions for imminent threats to health and safety when the assistance does not result in permanent changes to the environment.

The following activities, or any combination thereof, are **CATEGORICALLY EXCLUDED**:

- ✓ Acquisition, construction, reconstruction, rehabilitation, or installation of public facilities and improvements, and authorized economic development activities under the CDBG program, provided that continued use remains without change in scale, size, capacity, location or character;
- ✓ Removal of architectural barriers;
- ✓ Rehabilitation of buildings and improvements, provided that unit density of building occupancy is not increased more than 20%, the project does not involve changes in land use classification, and the estimated cost of rehabilitation is less than 75% of the total.

Appendix E Joint A

Joint Application Agreement

Who must submit this appendix with their application?

If two or more eligible applicants are submitting a single application for CDBG funding, the Joint Application Agreement must be filled out, signed by all parties, and submitted with the application

What is the purpose of this appendix?

The Joint Application Agreement is one step in the required citizen participation process, and establishes a responsible party for the administration of the grant agreement, if funded.

On the following page is one suggested format for this Joint Application Agreement. You may change the format only to the extent that it does not eliminate the key components, including delegation of responsibility, access to records, and signature by all parties.

Who must submit this appendix with their application?

If eligible applicants choose to submit an application in cooperation with a nonmunicipal entity such as a non-profit corporation or a Native Village Council, a Cooperative Agreement must be filled out, signed by <u>all</u> parties, and submitted with the application.

What is the purpose of this appendix?

The Cooperative Agreement is one step in the required citizen participation process, and establishes a responsible party for the administration of the grant agreement, if funded.

On the following page is one suggested format for this Cooperative Agreement. You may change the format only to the extent that it does not eliminate the key components, including delegation of responsibility, access to records, and signature by all parties.

Note: The eligible (municipal) entity is the applicant and the non-municipal entity is the Co-Applicant. Similarly, in the event the project is funded, the eligible entity will be the Grantee.

Part II. Other Government Assistance and Expected Sources and Uses of Funds.

A. Other Government Assistance. This Part is to be completed by both applicants and recipients for assistance and recipients filing update reports. Applicants and recipients must report any other government assistance involved in the project or activity for which assistance is sought. Applicants and recipients must report any other government assistance involved in the project or activity. Other government assistance is defined in note 4 on the last page. For purposes of this definition, other government assistance is expected to be made available if, based on an assessment of all the circumstances involved, there are reasonable grounds to anticipate that the assistance will be forthcoming.

Both applicant and recipient disclosures must include all other government assistance involved with the HUD assistance, as well as any other government assistance that was made available before the request, but that has continuing vitality at the time of the request. - B. Non-Government Assistance. Note that the applicant and recipient disclosure report must specify all expected sources and uses of funds both from HUD *and any other source* that have been or are to be, made available for the project or activity. Non-government sources of funds typically include (but are not limited to) foundations and private contributors.

Residency of an individual in housing for which assistance is being sought is not, by itself, considered a covered financial interest.

The information required below must be provided.

- 1. Enter the full names and addresses. If the person is an entity, the listing must include the full name and address of the entity as well as the CEO. Please list all names alphabetically.
- 2. Entry of the Social Security Number (SSN) or Employee Identification Number (EIN), as appropriate, for each person listed is optional.

(It is likely that some of the information required by this report has been provided on SF 424A, and on various budget forms accompanying the application.)
