HEATING BLOCK DRI BATH H2105-1

Dri-Bath Incubator

(Thermo Scientific) The modular design of this Dri-Bath incubator permits heating and intermixing of all standard-size test tubes. Just dial the desired temperature on the reference knob. Separate front panel lights indicate power and heating cycle. Dri-Bath incubator has thermostatic control and accommodates one heating block. Blocks are available to accommodate tubes from 6 to 25mm. Also available are 0.5 and 1.5mL microtube blocks. Features integral side handles. Complete with block handle, three-prong cord and plug. Blocks not included. UL listed. View more products by

**Specifications**

Temperature range Ambient +5° to 115°C

Stability  $\pm 0.5^{\circ}\text{C}$

Dimensions (HxWxL) 4" x 8" x 9"

Power requirements 120V, 50/60 Hz, 75W, 0.63A

Ship. wt. 3.5 lb
