Shipping Weight - lb (kg)	476 (216)
Shipping Dimensions - in (mm)	W: 35 1/2" (902) D: 59" (1499) H: 72" (1829)
Agency Approvals	Electric: cCSAus Gas: CSA Star, CSA Flame, cCSAus

NEW EXCEPTIONAL CISSELL 55 LB TUMBLER

- Break-through product with no equal in the market.
- Largest capacity axial airflow drying tumbler produced domestically.
- Built on the same proven design as the 45 lb stack tumbler.
- Answers the call for a large capacity tumbler that fits through a 36" door.

On-Premises Laundry Impact

- Because the tumbler fits through a 36" doorway, it fills a need for on-premises laundries with space limitations.
- The speed and efficiency of the unit will help operations rein in utility costs while maximizing throughput.
- A compact design means it takes up less floor space in the laundry, helping improve workflow in laundries with minimal available space.

Coin Laundry Impact

- Store owners can provide maximum drying capacity in a minimum amount of space.
- When paired with the 45 lb stack, the combination could be the most efficient drying duo on the market — cutting utility expenses.

Tumbler models are made to suit a variety of electrical service characteristics. See your Cissell distributor for specifications. For further details on installation, refer to Installation, Operation and Maintenance instructions supplied with the tumbler. Amperage ratings available in Installation Manual.

For the most accurate information, the installation guide should be used for all design and construction purposes. Due to continuous product improvements, design and specifications subject to change without notice. Features and certifications may vary by model. The quality management system of Alliance Laundry Systems' Ripon facility has been registered to ISO 9001:2000.
