

This stainless steel commercial 24" x 96" work table with stainless steel undershelf, and legs is constructed from durable and easy-to-clean 16-gauge, 304-series stainless steel, which is thicker and sturdier than 18-gauge. This durable all stainless steel work table will provide additional space for preparation or other tasks. Due to its all-stainless steel construction, this work table is especially suited for damp environments. The legs of this work table are 1 5/8" in diameter and are also made of tubular stainless steel, with adjustable, metal, bullet feet. NSF Listed. For additional details, consult the specification sheet. Dimensions: Width (Work Surface): 24" Length (Work Surface): 96" Height: 36"
