

Equipment ID: Lab 20
EAGLE® Space Saver
24 Gallon Flammables Cabinet

EAGLE® Space Saver Safety Cabinet

Strong components and 18-ga. steel walls (welded inside and out) add rigidity and stability to these safety cabinets.

Specifications: Double-wall design with 1-1/2" airspace insulates interior.

Three-point latch and key lock secures flammable contents. Dual 2" external vents with fire baffle and vent covers can accommodate a mechanical exhaust system. A leakproof 2" doorsill contains spills. Three galvanized steel shelves adjust in 3" increments, allowing you to customize storage. **Self-Closing** cabinet has one door that automatically closes at 165°. Door hangs on a sturdy, full-length piano hinge for enhanced durability.

Compliance: Meet OSHA and NFPA Code 30 specifications. Self-Closing model meets UFC 79.

24-gal.

Manual Door, Yellow

65" H x 23" W x 18"D
