

Equipment ID: Misc-16
Lifeline Metro LEC 53
Emergency (Crash) Cart

Lifeline Emergency Cart Metro's family of Lifeline Emergency Carts (LEC) were designed for a code not adapted for one. Designed and field tested by emergency personnel to provide not only storage and transport, but a total emergency workstation that meets the most stringent standards.

- "Grab and go" steering/caster system assures positive control of cart.
- Casters convert to "full swivel" at code site for perfect positioning.
- With the flip of the security latch, everything is unlocked and ready
- Crash cart design allows simultaneous access by multiple code team members
- Recessed storage are with retractable cover for quick retrieval of first-line medications.
- Defibrillator swing arm unlocks and swings 90 degrees away from cart top, then rotates 180 degrees.
