

Project Engineer: Eric Voorhees, P.E.

Engineer's Daily Summary: Wednesday, October 3, 2012

Project No: 68828/HPRM-0003(135) & 67789

Project Name: Wrangell Road and Utility Improvements

Weather: $\approx 50^\circ$ in the afternoon, Clear, Calm

- Throughout the day 1-3 SEEM workers worked with local welders to repair damaged awning to the Otteson Warehouse at approx.14+50, RT.
- In the afternoon I coordinated and conducted a walk-through with CBW staff (Carol Rushmore, Tim Rooney and Jeff Jabusch) for final concurrence on the project. We identified 3 areas where more glass seeded exposure is required which was added to the final punchlist that will be submitted to the contractor.
